## 2007 Childcare and School Fact Sheet

Thanks to universal enforcement of the California Immunization Law (Health and Safety Code, Sections 120325-120375 and California Code of Regulations, Sections 6000-6075) children in childcare and schools are well protected against vaccine-preventable diseases. The implementation of statewide requirements has been effective in maintaining  $\geq 95\%$  immunization coverage among children in licensed childcare facilities and kindergartens.

### Estimated California Population In Childcare Facilities and Schools

California Population All Ages:	37,810,582 <sup>1</sup>	California Population Age 5 Years:	539,090 <sup>1</sup>
California Population of Children 2–4 years:	1,630,927 <sup>1</sup>	Percent of Kindergartens Responding to Survey:	98.1% <sup>4</sup>
Percent of Childcare Facilities Responding to Survey:	94.1% <sup>2</sup>	Number of Kindergartens Reporting Enrollment:	8,481 <sup>3</sup>
Number of Childcare Facilities Reporting Enrollment:	9,965 <sup>3</sup>	Number of Students in Reporting Kindergartens:	499,301 <sup>3</sup>
Number of Children 2–4 years in Reporting Childcare Facilities:	512,490 <sup>3</sup>		

<sup>1</sup> 2007, California Department of Finance
